

QuoroFiber

Quorit
WOUND CARE

Natural Bovine Collagen Fiber Particles

Fibrous collagen that guides healing

Retain Triple Helix structure

Preserves native collagen architecture to support cell attachment, migration, and organized tissue regeneration in surgical wounds.

Exudate Management

Effectively manages low to moderate exuding wounds, maintaining an optimal moist wound environment while protecting surrounding tissue.

Remove bad odor

Helps remove unpleasant wound odour by reducing microbial load and managing wound exudate

: Indications :

For management of surgical wounds, including:

- Open surgical wounds - Tunneled wounds - Draining wounds

QuoroFiber-AB

Natural Bovine Collagen Fiber Particles
Mupirolin 2% w/w & Metronidazole 1% w/w

Topical antimicrobials combined with collagen may reduce local microbial burden and accelerate clinical resolution in infected or contaminated wounds¹.

Randomized controlled trials demonstrate improved healing outcomes with collagen-based dressings^{2 3}.
